program!

7 Friend- Making Tips for the Slammer!

All you need is a car and can-do attitude!

Congratulations! You are about to take failure into your own hands. Simply follow these "4 Foolproof Steps for Driving Your Future Into the Ground." Guaranteed results!

1. Seek out opportunities to get pulled over! Nothing will make your insurance company happier than when you get a ticket; and all the better if it's for speeding or reckless driving. But never be satisfied with just one. The more tickets you get, the more likely you'll lose your driving privileges. Just think: You can soon be walking everywhere. And all to the snappy tune of "I'm a total loser!"

2. Betray your friends and wreck your reputation! Anyone can be mean to their friends, but it takes a special someone to roll the car and put them in the hospital. Just keep telling yourself that you are that special someone. Can you say, "Loner, party of one?"

3. Get sued and enjoy financial problems instantly! Crashing into another car is the fastest way to get sued. But remember: The more damage you do to the other car, the more money they'll come after. It's a great way to strap yourself and your parents for years to come. Ahh, to be 25 and still paying off a car crash!

4. Hurt somebody and become a felon for life! Nothing says failure like getting in a car wreck where you hurt or kill someone. That way you'll be arrested and booked as a felon. You'll even make an appearance in a real live court room. Best of all, once a felon, always a felon. That means every college and job you send an application to will instantly be unimpressed. There's no better way to make your dreams crumble in around you!

But wait! There's more! Now that you're a felon and you've lost all your friends, you get to meet new friends in jail. Use these "7 Friend-Making Tips for the Slammer:"

1. Always say "hello" and smile.
2. Ask your cellmate what sign they are.
3. Get prisoners to vote on whether the jumpsuits are orange or tangerine.
4. Listen more than you talk.
5. Get the warden to sponsor bagel Fridays.
6. Start a poetry night.
7. Send thank you notes.

It's pretty much a no-brainer, isn't it? Stupid driving can wreck your life.
Smart driving keeps you free.
